

Angular Acoustic Ceiling System - 2400x1800

ceiling system

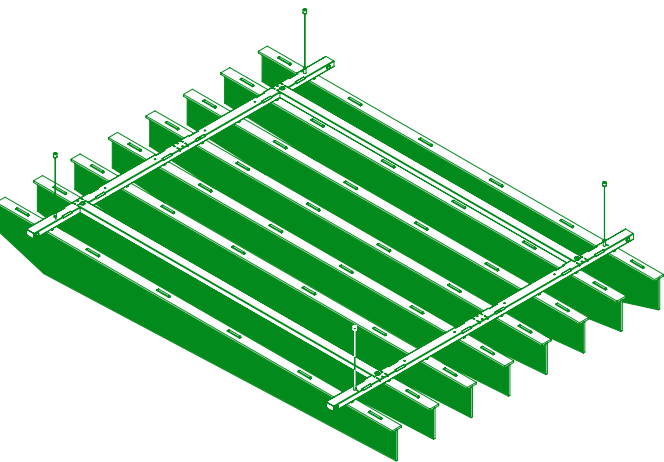

refelt

The Acoustic Ceiling System Angular offers a complete and easy-to-install solution for any space. Each module consists of 8 baffles, whose sloping corners and contemporary design add a dynamic touch to any ceiling. Made from sustainable PET Felt, the baffles deliver excellent acoustic properties, effectively absorbing sound and reducing reverberation.

Thanks to the EasyGrid system, installation requires no tools and the height is fully adjustable, giving you complete creative freedom.

Product overview

Collection	Standard
Baffles	PET Felt
EasyGrid	Steel (Black)
Size	2400 x 1800 x 290 mm

Cable lenght	100 cm

USP's

- All-in-one acoustic ceiling system
- Easy to attach
- Available in 28 colours, available from stock
- Made from recycled plastic bottles
- Excellent acoustic properties

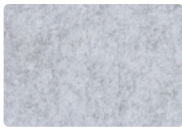

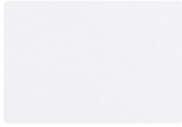

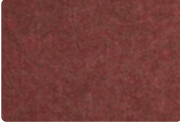

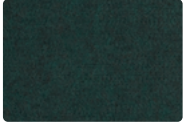

PET Felt

Our PET Felt is a sustainable and durable material made from recycled plastic bottles. The ground-up bottles are transformed into fibres, forming a soft yet sturdy felt with an open-cellular structure. This gives the material excellent acoustic properties, making it naturally sound-absorbing. PET Felt is easy to maintain, impact-resistant and fully recyclable.

Downloads

3D files, care & maintenance recommendations and installation guides are available at refelt.com.

Standard Collection

						
Black	Dark Grey	Grey	Light Grey	Marble	Camel	Coconut
						
Dark Blue	Cobalt	Denim	Blue	Sky	Cinnamon	Honey
						
Grape	Violet	Frost	Smoke	White	Beige	Sand
						
Wine	Red	Orange	Yellow	Green	Lime	Dark Green

Colour variations

Slight colour variations are a natural result of using recycled fibres in PET Felt panels. Each panel has a front and a back side, as the fibre nap runs in a specific direction on each surface. For a consistent finish, always install the panels with the front side facing out, and align them in the same direction throughout.
