

Quad Acoustic Ceiling System - 1200x1800

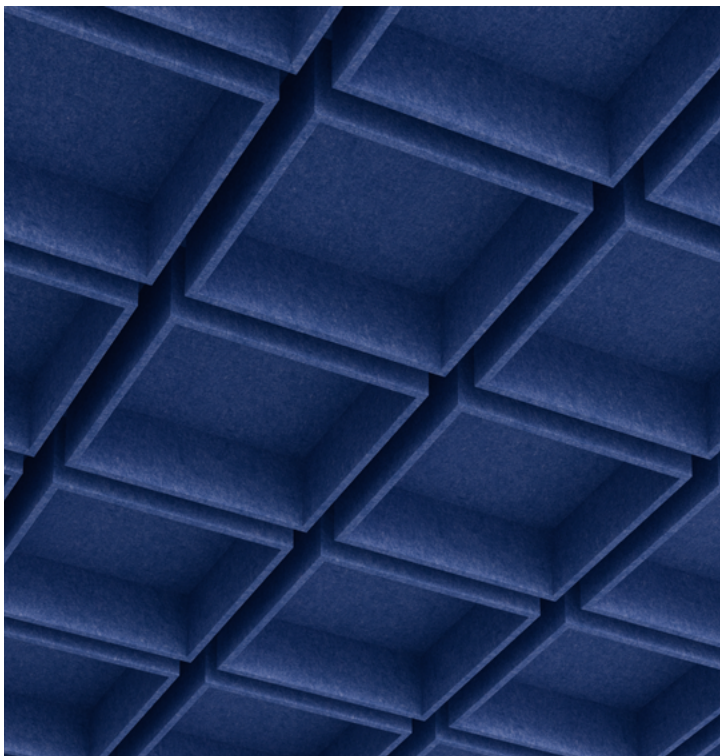

ceiling system

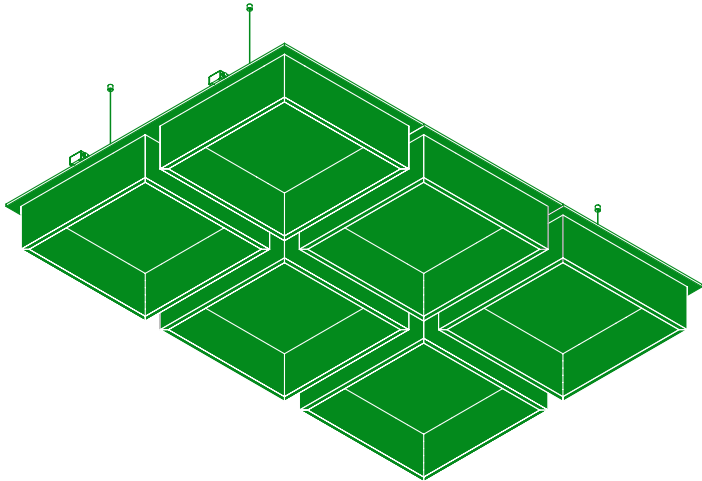

refelt

Quad Acoustic Ceiling System delivers acoustic elegance with complete flexibility. These fully enclosed square baffles are supplied in sets of 6 blocks, designed to suspend from the ceiling using our EasyGrid system.

The unique modular design allows expansion in both directions, making it effortless to scale your acoustic solution as your space evolves. With a premium PET Felt finish and straightforward installation, creating the perfect acoustic environment has never been easier.

Product overview

Collection	Standard 9mm
Material	PET Felt & Steel
EasyGrid	1800 x 1200 mm
Size	1800 x 1200 x 170 mm
Total weight	17.5 kg
Cable length	100 cm

USP's

- Excellent acoustic properties
- Compatible with existing grid system
- Scale in length and width. The system connects both ways.
- Easy to attach
- Available in 28 colours, available from stock
- Made from recycled plastic bottles
- Completely closed design

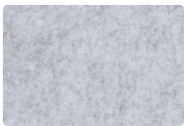

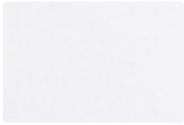

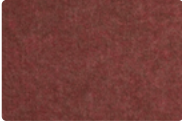

PET Felt

PET Felt is made from recycled plastic bottles. A fiber is made from the finely ground bottles and this creates a soft, but sturdy felt. It lasts a long time, is easy to maintain and dampens noise. PET Felt can also be recycled. The PET Felt is available in 28 colours and fits into any interior.

Downloads

3D files, care & maintenance recommendations and installation guides are available at refelt.com.

Standard Collection

						
Black	Dark Grey	Grey	Light Grey	Marble	Camel	Coconut
						
Dark Blue	Cobalt	Denim	Blue	Sky	Cinnamon	Honey
						
Grape	Violet	Frost	Smoke	White	Beige	Sand
						
Wine	Red	Orange	Yellow	Green	Lime	Dark Green

Colour variations

Slight colour variations are a natural result of using recycled fibres in PET Felt panels. Each panel has a front and a back side, as the fibre nap runs in a specific direction on each surface. For a consistent finish, always install the panels with the front side facing out, and align them in the same direction throughout.
