

Root Acoustic Ceiling System - 1200x1800

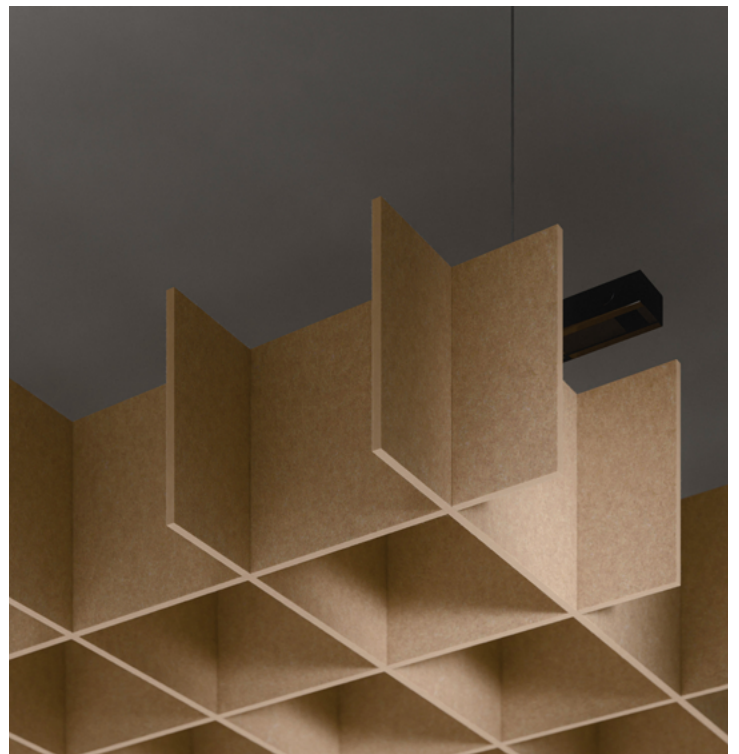

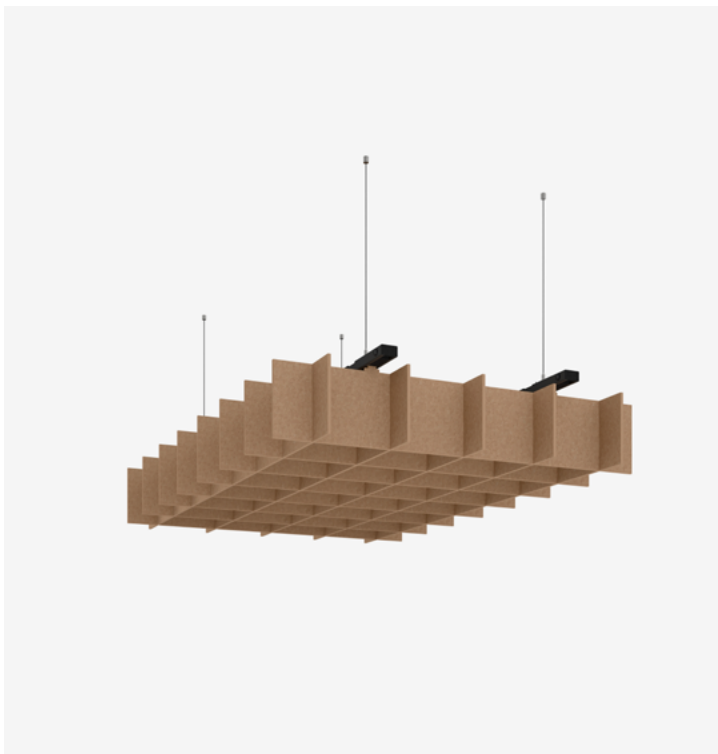

ceiling system

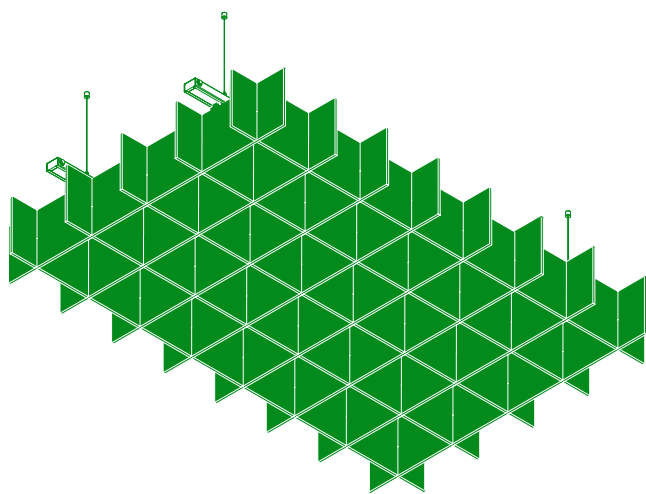

refelt

Root Acoustic Ceiling System features interlocking PetFelt baffles that create a geometric pattern, transforming ceilings into architectural statements. Built on our proven EasyGrid framework, this acoustic solution effectively absorbs sound and counteracts reverberation while maintaining an open, lightweight structure.

The modular design allows expansion in any direction, enabling custom configurations for conference rooms, restaurants, and open offices.

Product overview

Collection	Standaard
Material	PET Felt & Steel
EasyGrid	1200 x 1800 mm
Size	1200 x 1800 x 215 mm
Total weight	12.5 kg
Cable length	100 cm

USP's

- Excellent acoustic properties
- Compatible with existing grid system
- Easy to attach
- Available in 28 colours, available from stock
- Made from recycled plastic bottles
- Open system design for visual lightness

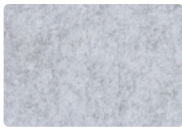

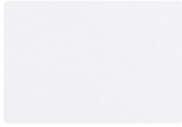

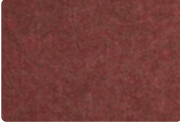

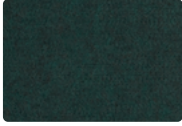

PET Felt

PET Felt is made from recycled plastic bottles. A fiber is made from the finely ground bottles and this creates a soft, but sturdy felt. It lasts a long time, is easy to maintain and dampens noise. PET felt can also be recycled. The PET felt is available in 28 colours and fits into any interior.

Downloads

3D files, care & maintenance recommendations and installation guides are available at refelt.com.

Standard Collection

						
Black	Dark Grey	Grey	Light Grey	Marble	Camel	Coconut
						
Dark Blue	Cobalt	Denim	Blue	Sky	Cinnamon	Honey
						
Grape	Violet	Frost	Smoke	White	Beige	Sand
						
Wine	Red	Orange	Yellow	Green	Lime	Dark Green

Colour variations

Slight colour variations are a natural result of using recycled fibres in PET Felt panels. Each panel has a front and a back side, as the fibre nap runs in a specific direction on each surface. For a consistent finish, always install the panels with the front side facing out, and align them in the same direction throughout.
