

Beehive Acoustic Wall Panel - 2400x1200

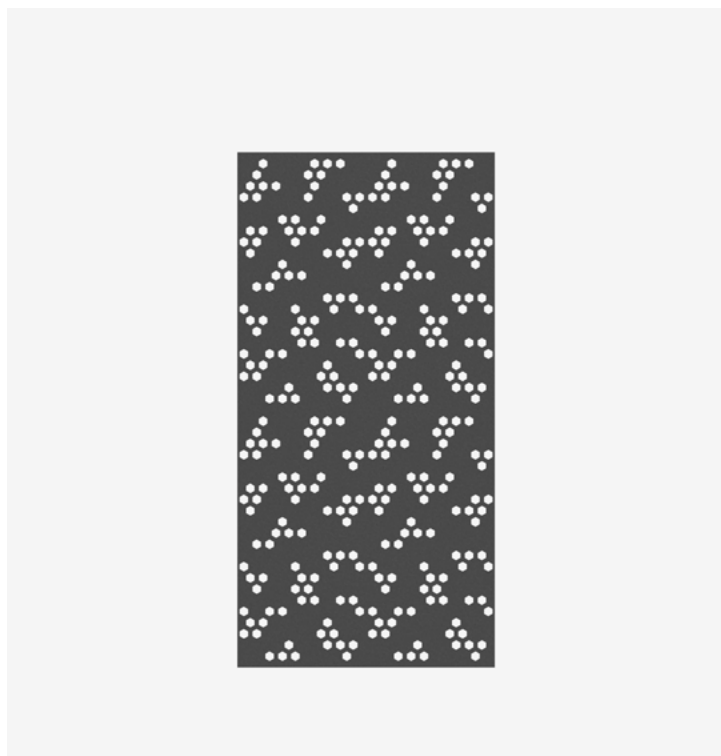

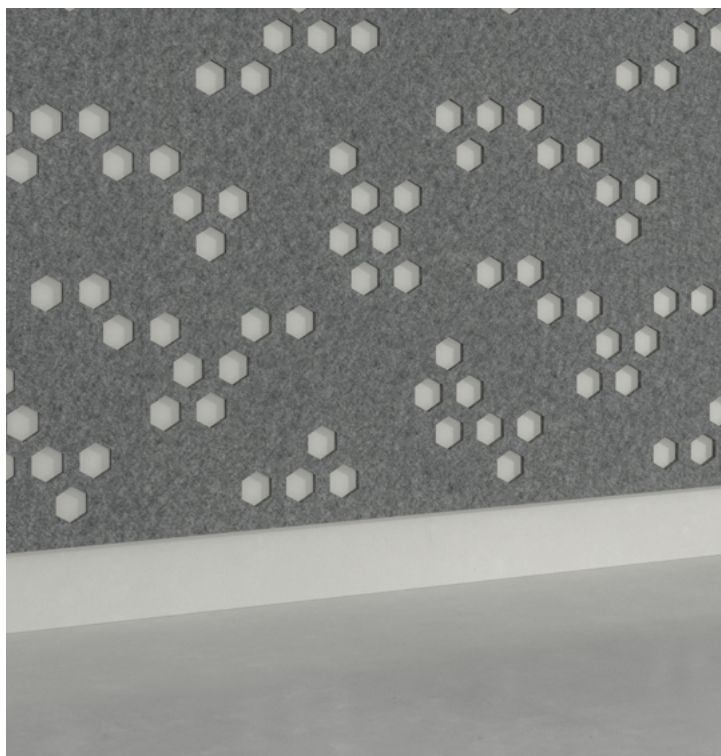

panels

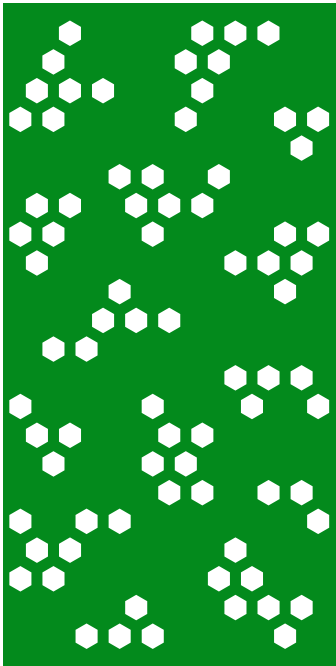

refelt

The Beehive Acoustic Wall Panel features hexagonal cut-outs that form an asymmetric pattern, inspired by the honeycomb. Thanks to its tileable design, the panels connect seamlessly and can cover a wall of any size. Use them to cover an entire wall or as a single accent strip in a room.

Made from sustainable PET Felt, the panels deliver excellent acoustic performance and are easy to mount on both walls and ceilings.

Product overview

Collection	Standard
Material	PET Felt
Thickness	9 mm
Dimensions 1/4 set	1200 x 600 x 9mm
Weight 1/4 set	1.17 kg
Dimensions full panel	2400 x 1200 x 9mm
Weight full panel	4.68 kg

USP's

- Made from recycled plastic bottles
- Tileable thru-cut pattern
- Great acoustic performance
- Easy to mount and process
- Impact-resistant
- Sold per set of 4 or as a full panel

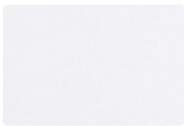

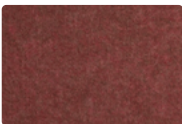

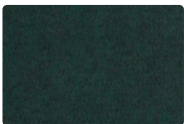

PET Felt

Our PET Felt is a sustainable and durable material made from recycled plastic bottles. The ground-up bottles are transformed into fibres, forming a soft yet sturdy felt with an open-cellular structure. This gives the material excellent acoustic properties, making it naturally sound-absorbing. PET Felt is easy to maintain, impact-resistant and fully recyclable.

Downloads

Standard Collection

						
Black	Dark Grey	Grey	Light Grey	Marble	Camel	Coconut
						
Dark Blue	Cobalt	Denim	Blue	Sky	Cinnamon	Honey
						
Grape	Violet	Frost	Smoke	White	Beige	Sand
						
Wine	Red	Orange	Yellow	Green	Lime	Dark Green

Colour variations

Slight colour variations are a natural result of using recycled fibres in PET Felt panels. Each panel has a front and a back side, as the fibre nap runs in a specific direction on each surface. For a consistent finish, always install the panels with the front side facing out, and align them in the same direction throughout.
