

Diagonal Acoustic Wall Panel - 2800x1120

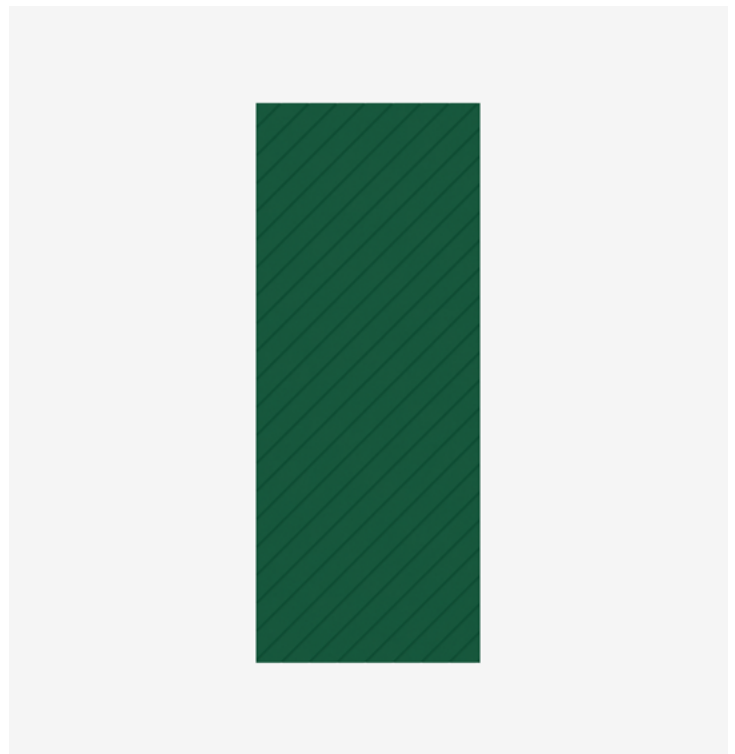

panels

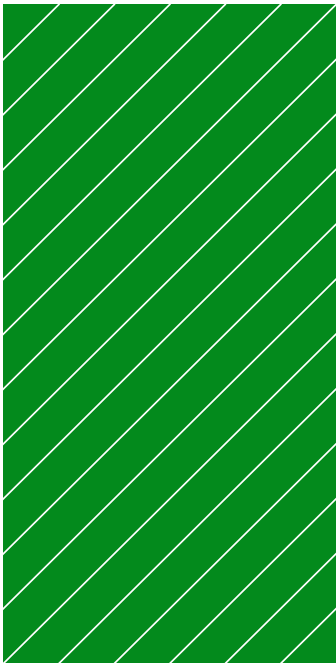

refelt

The Diagonal Acoustic Wall Panel features a v-cut pattern that opens up a range of design possibilities. Thanks to its tileable design, the panels connect seamlessly and can cover a surface of any size.

Made from sustainable PET Felt, the panels deliver excellent acoustic performance and are easy to mount on any surface.

Product overview

Collection	Refined
Material	PET Felt
Thickness	9 mm
Dimensions 1/4 set	1400 x 560 x 9mm
Weight 1/4 set	1.49 kg
Dimensions full panel	2800 x 1120 x 9mm
Weight full panel	5.96 kg

USP's

- Made from recycled plastic bottles
- Tileable thru-cut pattern
- Sound-dampening effect
- Easy to mount and process
- Impact-resistant
- Sold per set of 4 or as a full panel
- Floor-to-ceiling coverage, without compromise
- Unique curated colour selection
- Engineered with 100% Fire Retardant (FR) PET Fibers

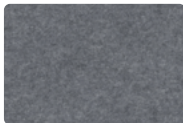

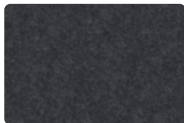

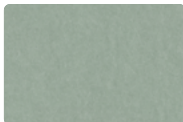

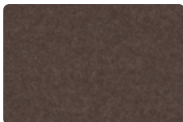

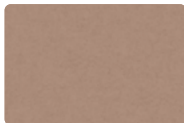

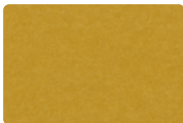

PET Felt

Our PET Felt is a sustainable and durable material made from recycled plastic bottles. The ground-up bottles are transformed into fibres, forming a soft yet sturdy felt with an open-cellular structure. This gives the material excellent acoustic properties, making it naturally sound-absorbing. PET Felt is easy to maintain, impact-resistant and fully recyclable.

Fog	Ash	Gravel	Basalt	Teal	Navy	Steel Blue
						
Haze	Polar	Mint	Fern	Moss	Pine	Brown
						
Copper	Biscuit	Tan	Linen	Coral	Ruby	Ochre

Colour variations

Slight colour variations are a natural result of using recycled fibres in PET Felt panels. Each panel has a front and a back side, as the fibre nap runs in a specific direction on each surface. For a consistent finish, always install the panels with the front side facing out, and align them in the same direction throughout.
