

Line Acoustic Curve Panel - 2400x1200

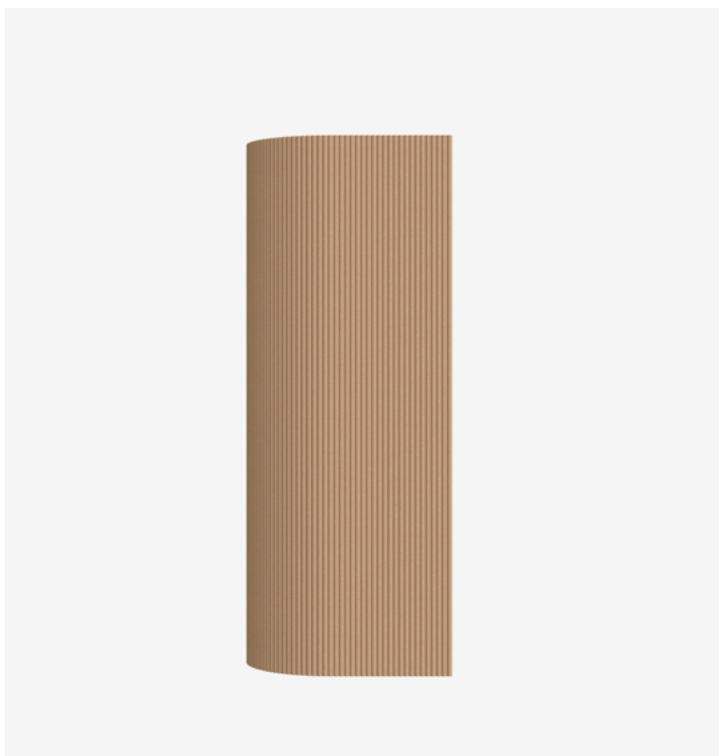

wall system

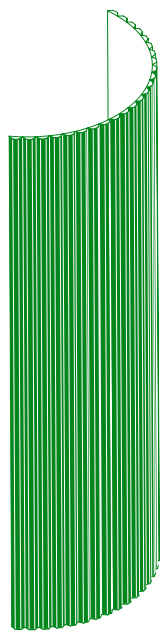

refelt

Line Acoustic Wall Panels provide a versatile acoustic solution for curved surfaces, effortlessly adapting to any shape. Their flexible structure ensures quick and efficient installation, while a wide range of colours offers limitless design possibilities. The ribbed texture adds visual depth and tactile dimension, giving the surface a refined sense of relief.

Made from recycled PET Felt, Line Panels also improve the overall acoustic comfort of a space.

USP's

- Flexible solution for curved surfaces
- Bendable with a min. radius of 500 mm
- Easy to mount and process
- Made from recycled PET Felt
- Sound-dampening effect
- Ribbed texture with rhythm and relief

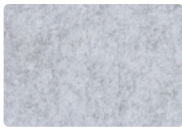

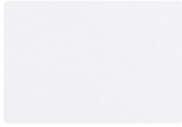

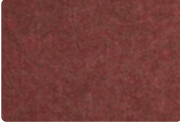

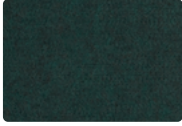

PET Felt

Our PET Felt is a sustainable and durable material made from recycled plastic bottles. The ground-up bottles are transformed into fibres, forming a soft yet sturdy felt with an open-cellular structure. This gives the material excellent acoustic properties, making it naturally sound-absorbing. PET Felt is easy to maintain, impact-resistant and fully recyclable.

Downloads

Standard Collection

						
Black	Dark Grey	Grey	Light Grey	Marble	Camel	Coconut
						
Dark Blue	Cobalt	Denim	Blue	Sky	Cinnamon	Honey
						
Grape	Violet	Frost	Smoke	White	Beige	Sand
						
Wine	Red	Orange	Yellow	Green	Lime	Dark Green

Colour variations

Slight colour variations are a natural result of using recycled fibres in PET Felt panels. Each panel has a front and a back side, as the fibre nap runs in a specific direction on each surface. For a consistent finish, always install the panels with the front side facing out, and align them in the same direction throughout.
