

Refined 9mm Acoustic Panel - 2900x1150

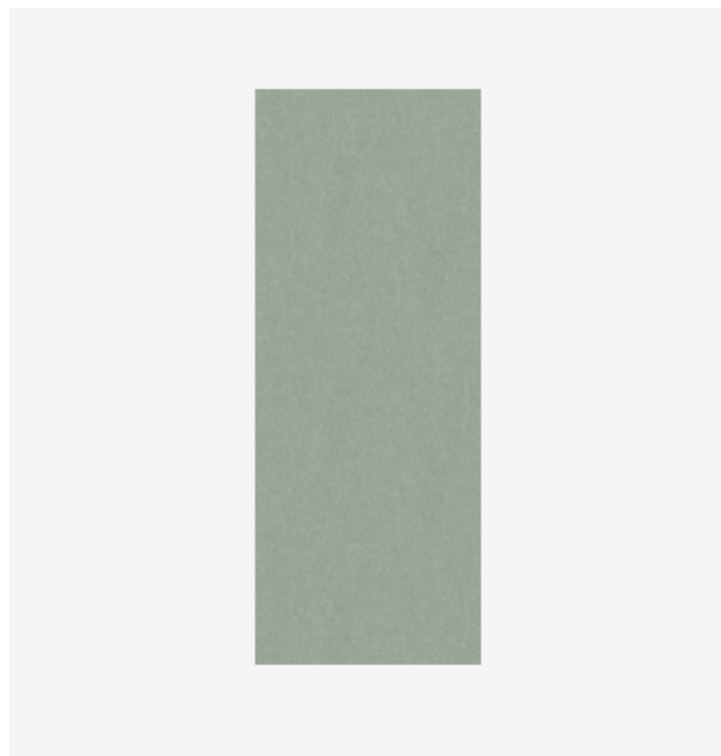

panels

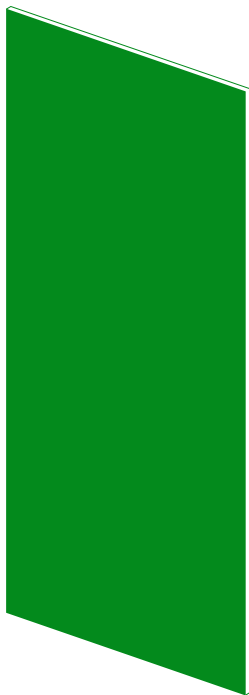

refelt

The Refined Panel offers high-end PET Felt panels designed for walls. With floor-to-ceiling dimensions of up to 290cm, the panels are available in a carefully curated colour selection and engineered with 100% fire-retardant PET fibres. The result is a durable, impact-resistant panel with excellent acoustic performance, suitable for a wide range of spaces.

Made from recycled plastic bottles, PET Felt is a sustainable material that is low-maintenance and fully recyclable at the end of its use.

Product overview

Collection	Refined
Material	FR PET Felt
Size	2900 x 1150 mm
Thickness	9 mm
Weight	6.7 kg
Reaction to fire classification	B-s2, d0

USP's

- Unmatched floor-to-ceiling height
- Exclusive colourways, developed in-house and only available through Refelt
- Engineerd with 100% Fire Retardant
- (FR) PET Fibers
- Impact-resistant
- Easy to mount and process
- Sound-dampening effect

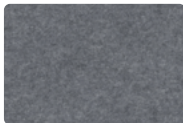

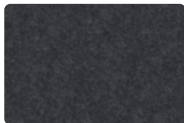

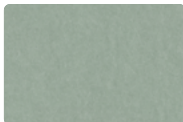

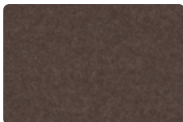

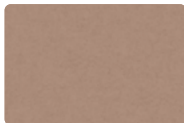

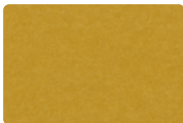

PET Felt

Our PET Felt is a sustainable and durable material made from recycled plastic bottles. The ground-up bottles are transformed into fibres, forming a soft yet sturdy felt with an open-cellular structure. This gives the material excellent acoustic properties, making it naturally sound-absorbing. PET Felt is easy to maintain, impact-resistant and fully recyclable.

Downloads

Refined Collection

						
Fog	Ash	Gravel	Basalt	Teal	Navy	Steel Blue
						
Haze	Polar	Mint	Fern	Moss	Pine	Brown
						
Copper	Biscuit	Tan	Linen	Coral	Ruby	Ochre

Colour variations

Slight colour variations are a natural result of using recycled fibres in PET Felt panels. Each panel has a front and a back side, as the fibre nap runs in a specific direction on each surface. For a consistent finish, always install the panels with the front side facing out, and align them in the same direction throughout.
