

Pleat Acoustic Wall Panel - 2400x750

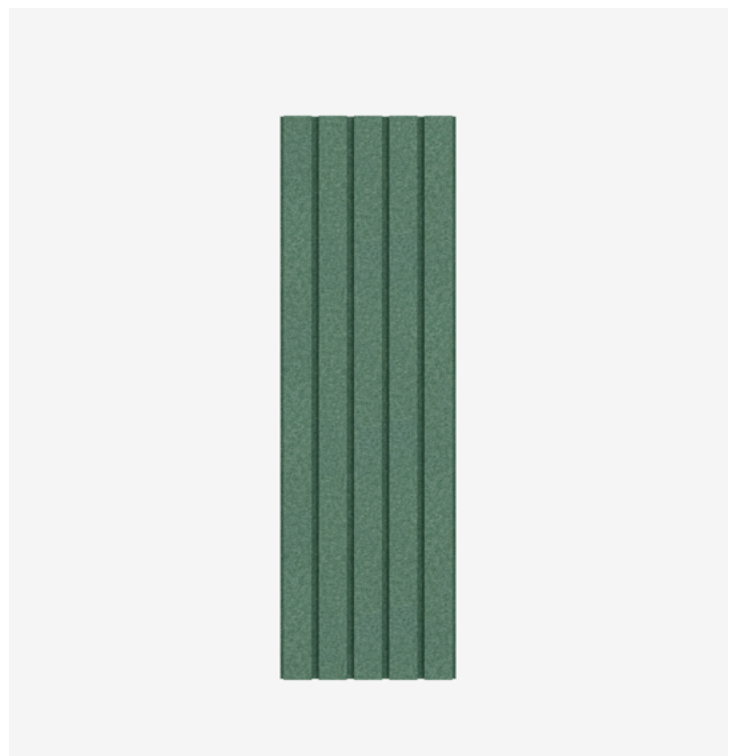

wall system

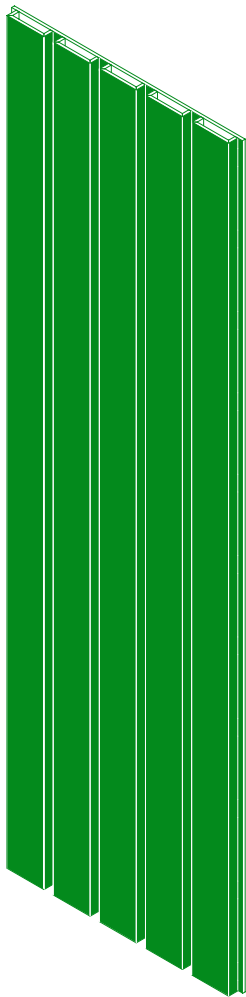

refelt

Pleat Acoustic Wall Panel transforms flat surfaces into structured, linear walls with its clean horizontal design. The straight PET Felt bands absorb sound and reduce echo, improving acoustic comfort in busy interiors. Made from recycled plastic bottles, Pleat Acoustic Wall Panel is a durable, minimalist solution for calmer, better-sounding spaces in offices and public areas.

The parallel bands create a steady rhythm across the wall, adding depth through subtle layering while maintaining a contemporary, understated aesthetic.

Product overview

Collection	Standard
Material	PET Felt
Size	2400 x 750 x 40 mm
Thickness	9 mm
Total weight	7.5 kg

USP's

- Unique 3D wall effect
- Improves acoustic comfort
- Made from recycled PET felt
- Also available in our Refined collection
- Combines seamlessly with our Drift Acoustic Wall Panel

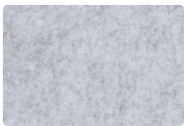

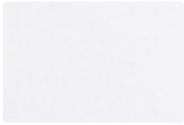

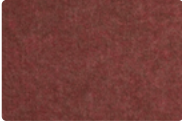

PET Felt

PET Felt is made from recycled plastic bottles. A fiber is made from the finely ground bottles and this creates a soft, but sturdy felt. It lasts a long time, is easy to maintain and dampens noise. PET Felt can also be recycled. The PET Felt is available in 28 colours and fits into any interior.

Downloads

3D files, care & maintenance recommendations and installation guides are available at refelt.com.

Standard Collection

						
Black	Dark Grey	Grey	Light Grey	Marble	Camel	Coconut
						
Dark Blue	Cobalt	Denim	Blue	Sky	Cinnamon	Honey
						
Grape	Violet	Frost	Smoke	White	Beige	Sand
						
Wine	Red	Orange	Yellow	Green	Lime	Dark Green

Colour variations

Slight colour variations are a natural result of using recycled fibres in PET Felt panels. Each panel has a front and a back side, as the fibre nap runs in a specific direction on each surface. For a consistent finish, always install the panels with the front side facing out, and align them in the same direction throughout.
