Onde

PET Felt Acoustic Panel

- made from recycled PET bottles
- tileable overlapping pattern
- smart magnetic fixture
- sound-dampening effect
- suitable for contract use

Colours

Panel

An aesthetic take on the acoustic panel that doesn't compromise sound-dampening qualities. Onde is pressed from PET Felt into an organic round shape, complemented with waves for improved acoustic performance. Its design allows scalable, overlapping placement to seamlessly cover any surface. Onde can be easily mounted on the wall using a smart magnetic fixture. Mix and match different PET Felt colours to create your own unique pattern.

Care & Maintenance

Due to its porous structure, PET Felt can be easily cleaned with water. To remove most stains, it is sufficient to apply a copious amount of water and let it drip through. Do not rub the PET felt surface to avoid excessive pilling. If water is not sufficient, stubborn stains can be removed with professional cleaning products like the James cleaning set.

AKOESTIEKLABEL

Onde Floating Fixture

- Onde panels are not included
- the fixture fits three panels
- cable length can be customised
- sound-dampening effect
- suitable for contract use

Colours

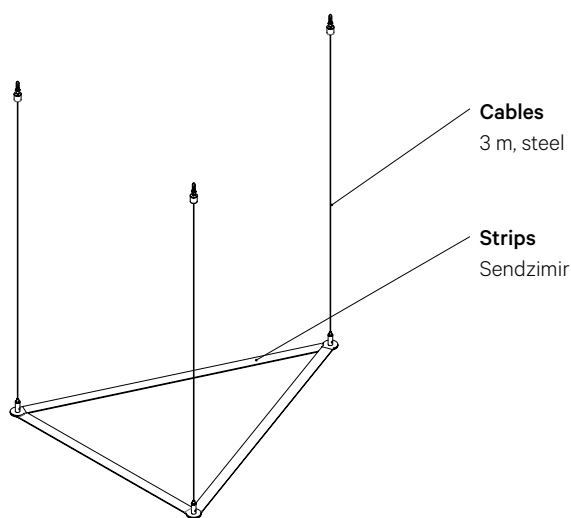

Panels (not included)

Fit for three Onde panels, the floating fixture translates their playful look into a ceiling-suspended format. Onde Floating is designed to minimise the floor-to-ceiling slap echo in open-plan offices, public spaces and restaurants. It comes with adjustable steel cables and a handy magnetic fixture. Choose the desired colours and combine multiple pieces to create a unique ceiling design.
