PET FELT TILES ARROWS

Create the most intriguing patterns with Arrows tiles. Their unique shape is composed of multiple triangles and asymmetric cut-outs. Applying Arrows on a contrasting background creates a special visual effect. The tiles have a handy size and are easy to mount on the wall.

PET FELT

PET Felt is a sustainable and durable material made from recycled plastic bottles. Thanks to its open-cellular structure, PET Felt demonstrates great acoustic properties. PET Felt panels are soft to touch, impact-resistant and easy to process.

COLOURS ⓘ

Since PET Felt is a recycled material, slight colour deviations may occur between different batches. It is recommended to order the required quantity at once to make sure the tiles come from the same batch.
