classification

PET FELT DIAGONAL TILES SMALL

Diagonal lines on these tiles give you the freedom to create endless patterns. Choose for parallel lines, a classic herringbone pattern, or combine four tiles into a diamond. A stunning look and acoustics are guaranteed.

PET FELT

PET Felt is a sustainable and durable material made from recycled plastic bottles. Thanks to its open-cellular structure, PET Felt demonstrates great acoustic properties. PET Felt panels are soft to touch, impact-resistant and easy to process.

COLOURS ①

Since PET Felt is a recycled material, slight colour deviations may occur between different batches. It is recommended to order the required quantity at once to make sure the tiles come from the same batch.
