PET FELT PLAIN TILES SMALL

PET Felt tiles improve the acoustics of every room in an attractive way. Due to the size of the tiles, you have the flexibility to make the most beautiful creations. The edges are finished with a bevel cut, which adds to the look of the room. Ideal for the office, meeting rooms or the home office.

PET FELT

PET Felt is a sustainable and durable material made from recycled plastic bottles. Thanks to its open-cellular structure, PET Felt demonstrates great acoustic properties. PET Felt panels are soft to touch, impact-resistant and easy to process.

COLOURS

Since PET Felt is a recycled material, slight colour deviations may occur between different batches. It is recommended to order the required quantity at once to make sure the tiles come from the same batch.
