- Sold in sets of 9 tiles

Material	PET Felt
Size	400 x 400 x 9 mm
Weight per set	2.7 kg
Reaction to fire classification	B-s1, d0

PET FELT LINES TILES LARGE

One simple line makes a world of difference. It gives you the freedom to make your own patterns and thus improve the acoustics of any space quickly. You can cover an entire wall or a part of it by making a nice pattern yourself. Combine different tiles to multiply your design options.

PET FELT

PET Felt is a sustainable and durable material made from recycled plastic bottles. Thanks to its open-cellular structure, PET Felt demonstrates great acoustic properties. PET Felt panels are soft to touch, impact-resistant and easy to process.

COLOURS

Since PET Felt is a recycled material, slight colour deviations may occur between different batches. It is recommended to order the required quantity at once to make sure the tiles come from the same batch.
