ASTER PET FELT LAMP MEDIUM

Aster lamp offers a combined solution for acoustics and illumination. Its generous lampshade has a distinctive geometric pattern, puzzled from the PET Felt material. Enveloping an embedded LED module, it gently casts the light down, granting an inviting sensation of calmness combined with a sound-dampening effect.

PET FELT

PET Felt is a sustainable and durable material made from recycled plastic bottles. Thanks to its open-cellular structure, PET Felt demonstrates great acoustic properties. PET Felt panels are soft to touch, impact-resistant and easy to process.

COLOURS

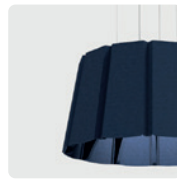

Slight colour deviations can occur since the PET Felt is made from recycled fibers.
